

## Building for Social Responsibility Membership Form

“BSR and its VBG program are at the cutting edge of the most important trend in building, construction, architecture, and design – the understanding that we need to start taking the planet into account as we plan the places we work and live. Sure an ecologically sensible home will save lots of money in the long run – but that's not the most important thing it's saving.” – **Bill McKibben**

"It is the result of grassroots efforts by organizations such as Building for Social Responsibility that has pushed us further along the green building path, on our way towards making sustainable building mainstream." – **Jay Hall**, LEED for Homes Program Manager

### Send to:

BSR  
PO Box 8882  
Burlington, VT 05402

### I would like to become a member of Building for Social Responsibility.
