  - c. Include language on the brochure directed to plumbers to let them know this will count towards “Solar Partnership”
    - i. **Renewable Energy Vermont (REV) Solar Thermal Partnership:** This course is recognized by REV. Licensed plumbers who attend Day 1 (or both days?) will be eligible to apply for “REV Solar Thermal Partnership”. Non-licensed professionals will receive 16 hours of credit towards eligibility. Solar Thermal Partnership is required to access Vermont incentives. Contact BSR for further details.”
    - ii. Questions to clarify from REV:
      1. Licensed plumbers:
        - a. 8 hours of the course plus installation?
        - b. 16 hours of the course plus installation?
        - c. 8 hours only ?
        - d. 16 hours only ?
      2. Non-licensed professionals :

- a. What is required ? How many days after the 16 course, how many installations and how to document?
- 3. Can REV modify the application to clarify all of this with the BSR course?
- iii. The web site will need to be updated with this information and a pdf of the brochure

2. Next meeting:
